**Poland's share in the EU**

Source: Eurostat, Central Statistical Office, Pont Info, Pekao Analyses

1) Based on Eurostat data, including sewage disposal and treatment, land reclamation and development – no data separated for waste management alone 2) Data for companies submitting F-01 reports, employing at least ten employees 3) Based on Eurostat SBS statistics, data for PKD [Polish Classification of Business Activity] 38, the most up-to-date available

## EKOTECH

**Networking**  
Thousands of business insiders visiting the expo

**Publicity**  
Product launches and market novelties

**Content**  
Rich conferences and lectures

**Practice**  
Machines and devices presented live

Ekotech is an excellent promotional tool for SANTRADE, as it allows our company to directly contact a group of target customers. Ekotech is worth exhibiting because the money invested in promotion pays off very well, and most of our machines presented at the show were sold.

Grzegorz Romańczyk, Santrade

We have been a part of the Ekotech for 5 years and each consecutive expo is better than the previous one. The municipal sector is a fairly small, so we are pleased to be able to meet our partners here. Customers are very keen to visit this part of Poland, and they appreciate Kielce for the many new things showcased at the expo. I sincerely encourage everyone to attend this event, with a lot of topical knowledge, many interesting exhibitors, interesting products, and above all, the opportunity to meet in a business atmosphere.

Paulina Bobońska, GLOBTRAK

## EKOTECH visitors

- Local governments' representatives
- Entrepreneurs representing the environmental protection and municipal sectors
- Representatives of the business and science milieus
- Municipal facilities management
- Vehicle dismantling station owners
- Ecology consultants and specialists
