MEDIA COVERAGE

The 32nd International Defence Industry Exhibition was truly exceptional; the show brought together 769 companies from 33 countries, including 353 Polish firms. Over 28 thousand people from around the world, two thousand more than last year, were presented with the latest defence technologies and solutions. This group also included 65 foreign delegations from 47 countries, and among them Australia, Belgium, Cyprus, Denmark, Estonia, the Philippines, France, India, Indonesia, Japan, Canada, South Korea,

Malaysia, Serbia, the United States, Sweden, Turkey, Ukraine, Italy and Bangladesh.

Since the first MSPO, the event has been a strategic trade show for our country. In 1999, for example, thanks to the support of the Chief of General Staff, the exhibition of the Armed Forces was prepared at the Kielce Expo for the first time to celebrate Poland's accession to the North Atlantic Treaty Organization. This year's Expo witnessed the anniversary Exhibition held under the banner of of Poland; 25 years in NATO, safe and secure for 25 years.

The Exhibition's importance is also emphasised by the presence of the country's most influential people, who were hosted at Targi Kielce. Following many-year example MSPO was graced with the presence of many official guests, including the President of the Republic of Poland, Mr. Andrzej Duda. On both the first and last day of the event, Deputy Prime Minister and Minister of National Defence Władysław Kosiniak-Kamysz participated in the show. The event was also visited by Tomasz Siemoniak, Minister of Internal Affairs and Administration, and many other ministers, members of parliament, representatives of the provincial authorities and the city of Kielce, headed by the Mayor of Kielce, Agata Wojda. It is also worth adding that Mr. Szymon Hołownia was the first Speaker of the Sejm in the Expo's history to visit Targi Kielce and attend the opening of MSPO.

I would like to thank the commanders and soldiers who prepared and served in the Armed Forces Exhibition, and I owe gratitude to the strategic partner of the Expo, the Polish Armaments Group. I want to thank all exhibitors who treat the Expo participation as an important mission and always emerge victorious.

Next year, we will meet at MSPO in a slightly different reality because of the expo hall construction, which will begin in spring. I assure you, however - you will not even notice this process. The Targi Kielce team will go the extra mile to ensure that next year's Expo meets all expectations. The International Defence Industry Exhibition 2026 turns a new page in our history.

President of Board, CEO Targi Kielce

AGREEMENTS AND CONTRACTS SIGNED AT MSPO

The trade fair witnessed numerous MOU's, contracts and cooperation agreements signed with leading representatives of Poland's and global defence industry. Minister Władysław Kosiniak-Kamysz, at the press conference on the last day of the trade fair, recapitulated that the 32nd MSPO witnessed contracts worth approximately PLN 2 billion signed.

The Armaments Agency signed five contracts, including those with the Spanish Indra Sistemas, for delivering 15 systems, which soldiers servicing military airports are awaiting; the contract value is PLN 1.1 billion.

WB Electronics will supply of FlyEye Miniature Unmanned Aerial Systems sets; the contract value is 24 million PLN.

The contract covers the delivery of 31 radio receivers for anti-aircraft and anti-missile systems, intended for the medium-range Wisła and short-range Narew systems. The value of this contract is approximately \$16.7 million. Subsequent agreements of key importance also boosted the development of the defence industry, many of them were concluded behind the scenes.

PREMIERE PRESENTATIONS OF THE LATEST TECHNOLOGIES AND MILITARY EQUIPMENT

The International Defence Industry Exhibition is primarily the presentation platform for the most cutting-edge equipment and innovative technologies in defence. The premiere presentations featured advanced combat and communications projects and specific elements of a soldier's personal equipment.

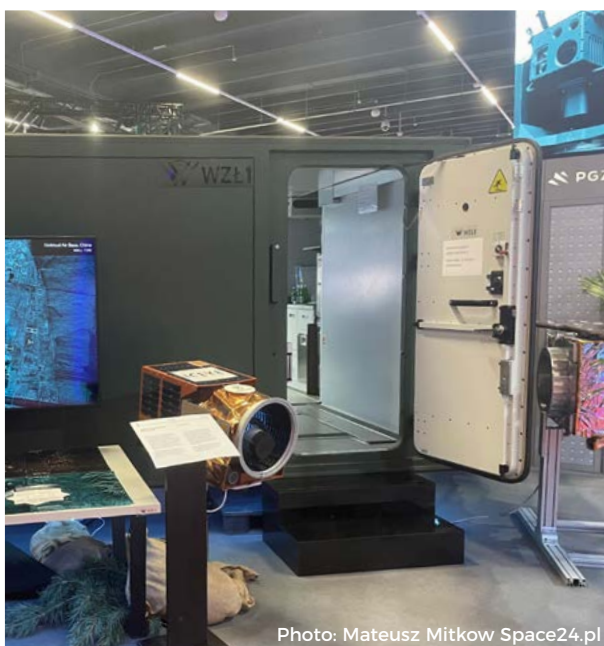

Photo: Mateusz Mitkow Space24.pl

The result of the cooperation contract concluded a year ago during the International Defence Industry Exhibition by the Polish Armaments Group with ICEYE and Military Communication Works No. 1 was presented at this year's MSPO in Targi Kielce. The Mobile ISR Satellite Reconnaissance Platform is one of the most modern solutions in the world. It allows armed forces to make quick decisions based on real-time satellite data. The solution combines communication and data transmission systems, user safety, power supply, and a specially designed antenna system, ensuring fast data transmission and direct distribution to the appropriate recipients at any command level. All elements have been integrated in an appropriately equipped container, which will be transported on a Jelcz chassis. The comprehensive system was developed jointly by the engineering teams of ICEYE, WZŁ-1 SA and PGZ SA.

On the third day of MSPO Sunway Network SA, a pioneer in integrating advanced technologies for the defence sector, presented its new solution – the Sunway Vision glasses system integrated with a combat helmet. Sunway Network SA has provided innovative technological solutions that redefine the future of military and security operations for years. The current flagship product - the Sunway Shot laser shooting trainer - is already offered on the Polish market and receives excellent customer feedback. The premiere product, Sunway Vision glasses, integrated with a combat helmet, combine advanced display technologies, image recording and artificial intelligence. The system ensures full mobility, precision and reliability in all terrain conditions for the army, special services, territorial defence forces and others.

On the first day of MSPO, the Minister of National Defence, Deputy Prime Minister Władysław Kosiniak-Kamysz and the Head of the National Security Bureau, Minister Jacek Siewiera, presented the publication of „The Polish Defence and Security Equipment Catalogue”. The Catalogue was created with the cooperation of the Ministry of National Defence, the National Security Bureau and companies from the domestic defence sector; the Catalogue presents several advanced technologies and innovative solutions developed by Polish companies. These innovations include electronics, cyberspace, armoured vehicles and artillery systems, weapon systems, as well as the aerospace industry, air and missile defence, underlining Poland’s leading position in defence and security. The Catalogue includes over 200 products from 61 Polish companies.

KNOWLEDGE AND EXPERIENCES EXCHANGE - CONFERENCES, SEMINARS, DEBATES

The International Defence Industry Exhibition abounds with seminars and conferences. This year, as many as 45 such meetings were held within the scope of the Expo.

On the second day of this year's International Defence Industry Exhibition, the editorial team of the Defence24.pl portal arranged the debate on: „Polish Soldier's Modern Uniforms - Ethos, Safety and Functionality” attended by representatives of the military, including the 1st Deputy Commander of the Territorial Defence Forces, Brigadier General Grzegorz Barabieda, Anna Zygan from Milliken & Company and General Ben Hodges, former commanding general of the United States Army in Europe. The event discussed issues important from the point of view of users – soldiers. Functionality and solutions and technologies used in uniforms were discussed and complemented with abundance of references to the so-called „Operation Gear” and the Advanced Individual Combat System (IISW) Tytan programme.

The seminar „The Modern Battlefield as a Determinant of the Development of Artillery Systems” presented solutions that are already in operation or will be implemented soon. The conference

was organised by the Polish Armaments Group and Huta Stalowa Wola.

The 2nd Scientific Conference „Science for Defence and Security MSPO 2024” was held at the Congress Centre; the Kielce University of Technology arranged the meeting.

The Was Studies University invited participants to an expert debate devoted to the „contemporary NATO strategic concept”; the prospects for cooperation after the enlargement of the Alliance were discussed.

The Department of Trade and International Cooperation of the Ministry of Development Funds and Regional Policy offered a training course - „Become a supplier to the US Army stationed in Poland”. The meeting was an excellent platform for gaining knowledge and contacts for Polish entrepreneurs from industries cooperating with the army and uniformed services.

25

YEARS OF THE POLISH ARMED FORCES' EXHIBITION

For 25 years, the Armed Forces Exhibition has accompanied the International Defence Industry Exhibition in Targi Kielce. This is the traditional arena in which the Polish military shows its potential. For many years in a row, the Polish Armed Forces Exhibition has been organised and arranged by the Chief of the General Staff of the Polish Armed Forces. The Head of the Inspectorate for Armed Forces Support is responsible for implementing the entire undertaking and coordinating activities related to military units of the Polish Armed Forces participating in the Polish Armed Forces Exhibition.

The Jubilee XXV Armed Forces Exhibition presented the most modern military equipment introduced to the Polish Armed Forces, and se-

lected elements of logistic support for troops, laboratories, and didactic purposes. Kielce has traditionally hosted all types and branches of armed forces, complemented with cyberspace defence forces, the Military Police and military institutions, e.g. Operational Command of the Armed Forces Branches, General Command of the Armed Forces, Inspectorate of Armed Forces Support and Central Military Recruitment Centre.

This year's theme refers to the 25th anniversary of Poland's accession to the North Atlantic Alliance - „Poland; 25 years in NATO, safe and secure for 25 years”

MSPO OPEN DAY

The MSPO Open Day welcomes military enthusiasts who are offered the opportunity to take a closer look at the most modern equipment used by the Polish Army displayed at the Armed Forces Exhibition.

Forty-one combat units were presented at the Open Day, including the impressive Rosomak Wheeled Armoured Personnel Carriers and Leopard tanks, which are the core of the Polish Army's cutting-edge equipment. However, this is only part of the attractions. Visitors were also offered the opportunity to admire other large machines, such as the K2 tank from Hyundai Rotem and the Krab gun-howitzer manufactured by Huta Stalowa Wola. The event was visited by 12 thousand visitors.

AWARDS AND DISTINCTIONS

REPUBLIC OF POLAND PRESIDENT'S AWARD

**for the best products which serve
the purpose of the RP Armed Forces
soldiers' safety enhancement:**

RADMOR SA / Grupa WB
for the PERAD 5010 broadband personal
radio station

MINISTER'S OF NATIONAL DEFENCE'S DISTINCTION:

Łukasiewicz Research Network
- Institute of Aviation
for the ILR rocket - 33 Amber 2K

The product is co-financed from the state budget, the
National Center for Research and Development
and own funds.

THE SPECIAL DISTINCTION OF THE PROGRAMME BOARD:

**for an essential product for defen-
ce or state security, used to combat
emerging threats, terrorism and
other security threats:**

BC Arms LLC
for the WARRIOR line

DEFENDER AWARDS:

for products of distinctive quality, originality and innovation of technical solutions, exquisite operational values, as well as favourable economic indicators.

Huta Stalowa Wola SA
for the tactical multi-purpose vehicle 4x4 WARAN

The consortium of FlyFocus LLC, Metalexport-S LLC (leader),
Air Force Institute of Technology, Jakusz LLC
for the Striker loitering munition system

Scientific-industrial consortium composed of: the Heroes of Westerplatte
Polish Naval Academy, PIT-RADWAR
SA, Military University of Technology,
Jarosław Dąbrowski (leader), „TAR-
NÓW” Mechanical Works SA
for the 35 mm Ship Weapon System
OSU-35K

The product is co-financed from the state budget, the National Center for Research and Development and own funds.

PIT-RADWAR SA (leader); AM
TECHNOLOGIES LLC Warsaw
University of Technology
for Passive Location System (SPL)

The product is co-financed from the state budget, the National Center for Research and Development and own funds.

The Military Institute of Armoured and Automotive Technology,
(leader) CHEMA DS LLC MISTA LLC
for the configurable autonomous multi-task „KUNA” platform

GISS LLC
for the SatPack COBALT satellite
terminals

The product co-financed by EU funds administered by the Ministry of Development and Technology.

Consortium composed of: Military
University of Technology, Institute
of Optoelectronics (leader),
TELDAT LLC GP, NASK National Re-
search Institute
for the system of modular quantum
optical cryptography systems

The product is co-financed from the state budget, the National Center for Research and Development and own funds.

DEMARKO SA
for the ST 775-24W.H-PA low-bed semi-trailer

The consortium of Autocomp Management LLC, Military Institute of Armament Technology for the network-centric command module of a comprehensive training simulator for units equipped with the Rosomak APC

AREX LLC Automation and Measuring Devices Plant LLC / WB GROUP
for the ZMU-05 remote weapon module

**GENERAL COMMANDER
OF BRANCHES OF ARMED
FORCES' MAIN AWARD**

for the winner of "The Best
Presentation – the Best Expo
Stand" Competition

Land Forces Inspectorate

**GENERAL COMMANDED
OF BRANCHES OF ARMED
FORCES DISTINCTION**

for professional and immedia-
te surgical assistance during
MSPO

Armed Forces Epidemiological
Response Centre in Warsaw

THE DISTINCTION OPERATIONAL COMMAND OF BRANCHES OF ARMED FORCES

in the Category of INTELLIGENCE / RECONNAISSANCE

Warsaw University
of Technology
for the mobile radiolocation
laboratory-passive radar

in the Category of OPERATION SUPPORT

Military Institute
of Engineering Technology
for a universal anti-tank
fragmentation grenade

in the Category of OPERATION PROVISIONING

Autobox Innovations LLC
for a high-mobility truck-passenger
carrier AH 20.44 (operation security)

in the Category of FORCES SURVIVAL AND PROTECTION

AP-FLYER LLC
for MADDOS MDP,
mobile drone defence (tro-
op survival and protection)

in the Category of COMMAND SUPPORT

Vocational Development
Institute Krakow
for multifunctional automatic
network devices of the PAX series

TERRITORIAL DEFENCE FORCES COMMANDER'S AWARD IN THE CATEGORY OF EQUIPMENT AND GEAR FOR LIGHT INFANTRY SOLDIERS

AUTO PODLASIE LLC
for the ALAKRAN self-propelled mortar system

DISTINCTION OF THE COMMANDER OF THE TERRITORIAL DEFENCE FORCES IN THE CATEGORY OF EQUIPMENT AND GEAR FOR A LIGHT INFANTRY SOLDIER

PEX-POOL PLUS UNITS
for the SOWA detection and alarm observation system

THE INSPECTORATE FOR ARMED FORCES SUPPORT AWARDS

First AWARD for achievements in rationalisation and innovation

Logistics Training Centre in Groupa

for development and implementation of the rationalization project „Training station for hydropneumatic suspension” developed by Senior Warrant Officer Marcin Karpiński, Senior Staff Warrant Officer Mariusz Bargiel and Platoon Sergeant Marcin Grzegorzewski

Second AWARD for achievements in rationalisation and innovation

1 Regional Logistics Base in Wałcz

for development and implementation of the project „Technological guide for performing periodic maintenance of the WD-95 Command Vehicle and adaptation of the Grudziądz RWT to perform OO-2 based on the guide” by: Marcin Spakowski and Andrzej Modzelewski

Third PRIZE for achievements in rationalization and innovation activities

1st Logistic Brigade in Bydgoszcz

for development and implementation of the rationalization project „Adaptation of the electrical installation and external lighting of the HOMAR-A/HIMARS M142 vehicle for use in the Polish Armed Forces in accordance with the technical conditions of special vehicles and vehicles used for special purposes of the Polish Armed Forces.” developed by the team composed of: Mr. Karpal Paweł Ojdana, Mr. Senior Corporal Paweł Łyjak, Mr. Stefan Ojdana and Mr. Dariusz Goł

**SPECIAL AWARD OF THE MINISTER
OF DEVELOPMENT AND TECHNOLOGY**

for “The Best Polish Arms Exporter”

Jakusz LLC

PRESIDENT OF TARGI KIELCE AWARD

WB Electronics S.A.
for EyeQ Tactical Battlefield Reconnaissance
System (AI-ISR)

AWARD OF THE PRESIDENT OF THE POLISH SPACE AGENCY “COPERNICUS”

Łukasiewicz Research Network
- Institute of Aviation
for the success of ILR rocket - 33 Bursztyn 2K

AWARDS OF THE HEAD OF THE NATIONAL SECURITY BUREAU

for innovation and the use of new technologies which benefit safety and security

Consortium of companies: AMZ-KUTNO S.A., MILITARY INSTITUTE OF COMMUNICATIONS prof. Ph.D. J. Groszkowski - National Research Institute, Military Institute of Chemistry and Radiometry, Military Institute of Technology Armaments

MEDAL

**For the professional arrangement of a group presentation at an impressive level
for POLISH ARMAMENTS GROUP SA**

BATTLE-TESTED solutions

AWARDS FOR EXPO ARRANGEMENTS AND PRESENTATIONS

deepening customer relationships

brand image enhancement

sales and acquiring new orders

IMPRESSIONS OF MSPO GUESTS AND EXHIBITORS

Mr Andrzej Duda
the Republic of Poland President

I would like to express my great joy that I am here with you in person for the eighth time and that I again offered this trade fair the presidential patronage. This is a significant event for Poland from the economic point of view, but it is also a very important event for us and for our part of Europe and - I may say loftily - for the whole world from the point of view of safety and security.

Władysław Kosiniak - Kamysz
Deputy Prime Minister,
Minister of National Defence

This year's MSPO is the largest Polish Defence Industry Exhibition in its history. The Kielce expo is an example of extraordinary development and is very much needed for developing the Świętokrzyskie region. May this Expo be a great showcase of the Republic of Poland.

Piotr Zawieja
Member of the Management Board of PGZ

The Polish Armaments Group participates in many trade fairs around the world; MSPO is staged in Poland and is one of the most important events in Europe—this is certainly what makes the Kielce Expo stand out of the crowd. A very good atmosphere is conducive to holding meetings with representatives of our Government and the Ministry of National Defence. MSPO offers us the opportunity to present Polish solutions and products, and at the same time, we can keep abreast of the defence industry's development directions in all geographical locations. We have the opportunity to exchange experiences and also consider feedback regarding our equipment.

Marek Woliński
Business Development Manager Eycore

Expo participation allows us to reach the appropriate target group as well as prospective business partners for further development our product and company. Government institutions and the military are our main customers, which is why MSPO is the best place to present solutions for target customers. We had many interesting meetings with prospective decision-makers and suppliers. The expo organisation is very good, everything is very well organised; no remarks or reservations.

Polska Agencja
Kosmiczna

Michał Wierciński
Vice President of the Polish Space Agency

We find in the trade fair a great opportunity to promote the Polish space sector in the defence industry in the country and in our part of Europe. MSPO is the third largest arms expo on the old continent. This is a phenomenal promotional opportunity for both the Agency and, above all, all the companies that exhibit with us; participating in MSPO is very important to us thanks to the many business opportunities we see here. Year by year, the MSPO keeps advancing when it comes arrangement and organisation. This is our tenth time as an exhibitor; each year, the MSPO brings together an increasing number of entities from Poland and abroad. Our Agency finds this event of always-increasing importance and significance.

Rene Ehasalu
Cluster Manager, Estonian Defence
and Aerospace Industry Association

We have exhibited at MSPO for three years now. Each passing year, we are convinced that it is the largest Exhibition in Eastern Europe, which is a very important sales market for us.

As the Association and the organiser of the Estonia stand, we are really pleased with the arrangement of the Kielce exhibition. Everything has worked well, and compared to other exhibitions, I think you are also top-ranked as a high-quality trade show. We are very pleased to be a part of MSPO.

Tetiana Derkachenko
National Association of Ukrainian
Defense Industries (NAUDI)

MSPO has been known for the interest it generates in business milieus, for creating partnerships and for establishing cooperation in advanced technologies.

We had many meetings and hosted several very interesting delegations from countries with which we would like to develop future business relations. To sum up, all members of our team working at the Expo stand emphasised that the trade fair was a great success for us.

RZECZPOSPOLITA

XXXII MSPO

Polski przemysł obronny idzie w świat

Jedną z eksportowych ofert są polskie drony

Podczas Międzynarodowego Salonu Przemysłu Obronnego zaprezentowano katalog uzbrojenia, które polskie firmy chcą sprzedawać za granicą.

MATERIAŁ POWSTAŁ WE WSPÓŁPRACY Z TARGAMI KIELCE

„The Polish Defence and Security Equipment Catalogue”, bo tak zatytułowany jest katalog, ma pomóc rodzimym spółkom w podboju zagranicznych rynków. Jego powstanie to efekt współpracy Ministerstwa Obrony Narodowej, Biura Bezpieczeństwa Narodowego oraz firm polskiego sektora obronnego.

Publikacja obejmuje łącznie ponad 200 produktów 61 firm i znajdziemy w nim wszystko to, co ma najlepszego do zaoferowania nasz przemysł obronny. Katalog obejmuje całą gamę produktów. Od ciężkiego sprzętu, takiego jak pojazdy opancerzone czy systemy artyleryjskie, po wysoko wyspecjalizowane produkty i usługi z zakresu cyberprzestrzeni, łączności czy rozpoznania.

Trzeba podkreślić, że jest to inicjatywa jak najbardziej potrzebna. Kwestia eksportu uzbrojenia to największa piąta achillesowa polskiego przemysłu. Teraz pojawia się nadzieja, że to wkrótce się zmieni.

Kupujemy dużo, chcemy też dużo sprzedawać

Co oznacza publikacja katalogu dla polskich spółek przemysłu obronnego? Z deklaracji złożonych podczas MSPO w Kielcach wynika, że naprawdę dużo.

– Macie pełne wsparcie rządu Rzeczypospolitej Polski w działaniach, które prowadzicie – powiedział podczas konferencji prasowej Władysław Kosiniak-Kamysz, wicepremier i minister obrony narodowej, wyjaśniając, jaka idea stoi za najnowszą publikacją MON.

– Jesteśmy na MSPO w Kielcach, jednym z najważniejszych wydarzeń związanych z przemysłem obronnym. I chcemy tu dzisiaj bardzo wyraźnie powiedzieć naszym partnerom z zagranicy. Dużo kupiliśmy, teraz chcemy bardzo dużo sprze-

dać. Ten katalog ma nam to umożliwić – podkreślał.

Słowa szefa MON nie są na wyrost. Polska w ostatnich latach wyrosła na niekwestionowanego lidera wśród państw NATO wydatkach na obronność. W tym roku przeznaczymy na ten cel około 4 proc. PKB, co jest wynikiem dwukrotnie wyższym niż wymagane w sojuszu 2 proc. Wartość ta będzie tylko rosła. Obecnie szacuje się, że w przyszłym roku wskaźnik ten wzrośnie do poziomu 4,7 proc. PKB. To ogromne pieniądze i gdyby choć tylko część wróciła do kraju w formie eksportu, jest o co walczyć.

Publikacja katalogu oznacza, że przed polskimi urzędnikami nowe zadanie.

200 ofert

zawiera przygotowany po raz pierwszy katalog polskiego przemysłu obronnego

BBN musimy. Mamy odpowiedni potencjał, by to uczynić.

– Kraj, który wydaje 4 proc. PKB na obronność, a w perspektywie czasu być może nawet 5 proc. nie ma wyboru. Musi rozwinąć swój przemysł obronny. Jak pokazują przykłady z Korei Południowej, Turcji czy Izraela rozwinięcie takiego przemysłu w perspektywie dekady jest nie tylko możliwe. Jest koniecznością – mówił Siewiera.

– Polski katalog, który jako pierwszy zbiera zagregowaną wiedzę od biznesu i z rynku i nie różni na podmioty państwowe i prywatne. Wszystkie podmioty otrzymają wsparcie. To bardzo istotny sygnał dla naszych producentów, którzy zatrud-

61 firm

prezentuje swoje produkty w wydawnictwie, które ma trafić do zagranicznych klientów

– Będziemy się promować – powiedział szef MON zapewniając, że „The Polish Defence and Security Equipment Catalogue” będzie towarzyszył przedstawicielom MON na każdym wyjeździe zagranicznym. Katalog otrzymają także wszystkie polskie ambassy oraz attache wojskowe z zadaniem jego przedstawiania oraz promowania.

Bezpieczeństwo celem nadrzędnym

Jacek Siewiera, szef Biura Bezpieczeństwa Narodowego, podziękował za przyjęcie zaproszenia do współpracy. W wystąpieniu podkreślił także, że omawiana publikacja to ważny krok w dobrą stronę.

– Przygotowanie tego katalogu to przykład myślenia o bezpieczeństwie kraju. Bezpieczeństwo rozumianym nie tylko jako zdolność do rażenia celów i obrony wojsk własnych, ale także jako zdolność do produkcji, zabezpieczenia materiałowego sił zbrojnych oraz budowy właściwej pozycji eksportowej i zdolności ekonomicznych – powiedział.

Czy Polska zbuduje takie zdolności? Zdaniem szefa

nią polskie kadry na polskiej ziemi, którzy posiadają polskie łańcuchy dostaw z polskimi surowcami do tego, by oferować swoje produkty zagranicą – podkreślał.

Na koniec wystąpienia szef BBN odniósł się do historii.

– Nigdy więcej w historii Rzeczypospolitej nie możemy doprowadzić do sytuacji takiej, jak przed II Wojną Światową. Dzisiaj aspirując do 300 tys. armii musimy mieć w pamięci, że milionowa armia w trakcie II Wojny Światowej walczyła tylko trzy tygodnie. Nie dlatego, że brakowało woli walki czy ludzi. Brakowało zaplecza produkcyjnego, komponentów i łańcuchów dostaw. Nigdy więcej nie możemy dopuścić do takiej sytuacji – podsumował Siewiera.

Szef MON u podsumowuje tegoroczne targi zbrojeniowe

06.09.2024, godz. 16:02

AAA

To jest bardzo intensywny czas dyplomacji na rzecz bezpieczeństwa, ale też promocji polskich produktów. Bardzo dużo kupujemy, a chcemy jeszcze więcej sprzedawać – mówi wicepremier Władysław Kosiniak-Kamysz, podsumowując kończący się dziś Międzynarodowy Salon Przemysłu Obronnego. Szef MON u przypomniał o podpisanych w Kielcach kontraktach na kwotę blisko 2 mld zł.

Targi kolejny raz pobily rekord. Ponad 800 wystawców pokazało swoje produkty i usługi, przyjechało 65 delegacji międzynarodowych, połowa z nich na zaproszenie Ministerstwa Obrony Narodowej – mówi Władysław Kosiniak-Kamysz na konferencji w ostatnim dniu tegorocznej edycji Międzynarodowego Salonu Przemysłu Obronnego. Szef MON-u podkreślił, że targi są ważnym czasem dla dyplomacji na rzecz bezpieczeństwa, ale też okazją do promowania polskich produktów. – Bardzo dużo kupujemy, a chcemy jeszcze więcej sprzedawać – dodał.

Minister przypominał o kontraktach o wartościach ponad 2 mld zł podpisanych w Kielcach.

ARMY RECOGNITION

MSPO 2024: A Showcase of Best Military Innovation and Strategic Partnerships in Poland.

2 Sep, 2024 - 15:04 — Defense News Army 2024

The 32nd International Defence Industry Exhibition (MSPO) has kicked off at Targi Kielce, transforming the venue into a global epicenter of defense and security innovation. Running from September 3 to 6, 2024, this year's MSPO is a record-breaking event, featuring 769 companies from 34 countries, showcasing the latest advancements in military technology and defense systems.

A Global Exhibition with a Polish Heart

Occupying nearly 35,000 square meters, the MSPO 2024 is a testament to the growing significance of Poland in the global defense industry.

ESD

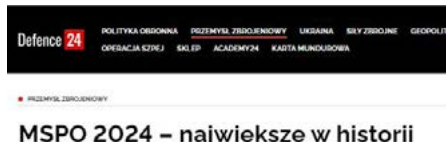

A record-breaking MSPO is on the horizon in Targi Kielce this September

The 32nd International Defence Industry Exhibition (MSPO) is to be held in Targi Kielce, Poland, from 3 to 6 September 2024. It is one of Europe's most important defence industry events. With the Polish Ministry of National Defence having issued invitations to 38 countries, almost 800 companies from 32 countries have already confirmed their participation and will exhibit their products in the show's impressive 30,000 m² exhibition area.

Held under the auspices of the President of the Republic of Poland, Mr. Andrzej Duda, MSPO features the Polish Armaments Group as its Strategic Partner.

The MSPO show in Targi Kielce has attracted exhibitors and visitors from all over the world for years. The event has always been the platform for exchanging experiences, presenting the latest technologies and establishing international business contacts. This trade show offers an excellent opportunity for defence companies to present their latest products and services and facilitate strategic partnerships.

DEFENCE 24

MSPO 2024 – największe w historii

Cztery dni Międzynarodowego Salonu Przemysłu Obronnego MSPO okazały się intensywnym czasem dla światowej branży obronnej. Biznesowe wydarzenie w Targach Kielce odwiedziło ponad 28 tysięcy osób. Kolejne 12 tysięcy pojawiło się w kieleckim osrodku podczas Dnia Otwartego Wystawy Sił Zbrojnych, w sobotę 7 września.

11. edycja Międzynarodowego Salonu Przemysłu Obronnego MSPO w Targach Kielce była kluczowym wydarzeniem dla branży obronnej. Oferte zaprezentowało 769 firm, w tym 416 z Polski i 353 z 34 krajów. Najliczniejsze reprezentacje przedsiębiorstw przyjechały ze Stanów Zjednoczonych (53), Wielkiej Brytanii (34), Australii (31), Niemiec (30), Kanady (27), Korei Południowej (27) i Danii (18). Tradycyjnie jak co roku niezwykle zaangażowanie w przygotowanie kieleckiego wydarzenia zaprezentowała Polska Grupa Zbrojeniowa – Partner Strategiczny MSPO. Dzielni współpracownicy Targów Kielce i POZ udało się stworzyć wydarzenie, które po raz kolejny stało się mixem spotkań elity przemysłu zbrojeniowego z kraju i ze świata i które spełniło oczekiwania wystawców i gości.

Rekordowa liczba zwiedzających MSPO 2024

Oferta najnowszych technologii, innowacji i rozwiązań przemysłowych w dziedzinie obrony.

ADVANCE

MSPO 2024: focused on the future

The annual International Defence Industry Exhibition MSPO – the 32nd edition of which is being held 3rd-6th September 2024 in Kielce, Poland – is one of Europe's most important defence industry events, with a total of 730 companies from 33 countries having already confirmed their participation in this year's event.

The impressive exhibition area – 35,000 square metres will showcase the companies' offer. The Ministry of National Defence issued invitations to 38 countries. The MSPO is also held under the auspices of the President of the Republic of Poland, Mr. Andrzej Duda. The Polish Armaments Group is the Strategic Partner of the International Defence Industry Exhibition.
