# FUTURE TexStyle – your chance to get ready for green changes

Become familiar with the details of the latest EU directive regarding the textile industry, trends and ecological solutions tailored to the 21st century's needs; the three-day **FUTURE TexStyle** congress is the answer.

**Green TexStyle** is a treasure trove of knowledge about the solutions adopted by the Council of the European Union regarding waste management, running a business in accordance with rules of re-

spect for human, animal and environmental rights, and sustainable development in textiles and clothing production.

**Business TexStyle** is a series of presentations that bring together industry experts who share tips with aspiring entrepreneurs. Business insiders will advise existing companies on adapting to changes without financial losses and discuss the necessary investments in the 21st century.
