Simplicity redefined

With Serstech Arx in hand, any operative becomes an expert at chemical identification. Quick Scan™ gives an accurate result within seconds with a single press of a button.

No adapters needed - The industry-first and patented autofocus functionality determines packaging material and thickness to ensure optimal accuracy and removal of interference.

Find out in seconds

Serstech Arx has been designed together with police and first responder teams to solve the real problems operatives face in the field. Determine what's in front of you in seconds, without complexity. More than 17.000 substances divided in Narcotics, Explosives, TICs, CWAs and Pharma libraries.

Patented precision

The patented Serstech SERS kit allows for quick identification of very low concentrations down to PPM levels and very challenging samples.
