REUSABLE MATERIAL CIRCUIT
WITHOUT INTERRUPTION?

It works.

» JUST AS SUSTAINABLE AS YOUR RESOURCES MANAGEMENT: BLUESERV

"CONTINUOUS OPERATION IS A PREREQUISITE
FOR COST-EFFICIENT PRODUCTION. WITH BLUESERV,
YOU REDUCE DOWNTIME TO AN ABSOLUTE MINIMUM."

OPERATING RELIABILITY AND COST CERTAINTY FOR THE RECYCLING INDUSTRY

In a well thought-out reusable material circuit, there is no time for interruptions. The robust and enormously durable Hosokawa Alpine machines display their strong points here: **with sophisticated technology, low-wear cast-iron housings and with a seamless spare parts service.**

Whether as a stand-alone recycling mill or at the end of a production chain such as the material recycling unit of your film line: our BLUESERV service brand ensures thanks to 115 years of expertise "Made in Germany" **that all your recycling processes run cost-effectively and without interruption.**

BLUESERV FOR THE RECYCLING INDUSTRY

COST-EFFICIENT PRODUCTION. VALUE-PRESERVING MAINTENANCE.

SPARES & REPAIRS

With the Hosokawa Alpine recycling systems, everything revolves around robustness and longevity. Our BLUESERV service exchanges the especially stressed components in good time and in the worst case, repairs your machine quickly and reliably.

PRE-OWNED MACHINES

Hosokawa Alpine pre-owned machines with warranty are always a reliable alternative for all those who need to plan ahead. Thanks to the BLUESERV maintenance contract, we keep your system availability as high as the contribution towards value preservation.

SYSTEM CHECK

Cost-effective and reliable recycling processes: with the BLUESERV Visio-Check, you need leave nothing to chance. Our thorough inspection prevents expensive system failures and thus reduces your production costs on a permanent basis.
