

**Bridging
audio, data
and power**

INVISIO V60 II ADP

The ultimate warfighter hub and PTT

INVISIO V60 II ADP is the ultimate warfighter hub and PTT designed to bridge audio, data & power. Building on the combat proven V-Series Gen II, it provides the modern warfighter more functionality with less devices by integrating systems and data.

Notifications from EUDs, voice prompts and live-audio streaming can be transmitted directly to the headset.

As part of the V-Series Gen II, it provides unparalleled audio performance and market leading hearing protection.

**Bridging audio, data
and power**

**Less devices, cables
and complexity**

**Market leading audio
and hearing protection**

Rugged and combat proven

INVISIO V60 II ADP

The ultimate warfighter hub and PTT
